Title:

Activity theory as a lens to explore participant perspectives of the administrative and academic activity systems in a university–school partnership in initial teacher education in Saudi Arabia

Submitted to

The University of Exeter as a thesis towards the degree of Doctor of Philosophy in Education

By

Dhaifallah Awwadh Alzaydi

Date of submission: (November, 2010)

This thesis is available for library on the understanding that it is copyright material and that no quotation from the thesis may be published without proper acknowledgement.

I certify in the year of submission that all material in this thesis which is not my own work has been identified and that no material is included for which a degree has previously been conferred upon me.

Abstract

This study used Activity Theory (AT) as a lens to explore how administrative and academic activity systems worked in a university, in schools and in the university-school partnership to support Initial Teacher Education (ITE) in Saudi Arabia. It examined the perspectives of partnership coordinators, university tutors, head teachers, cooperating teachers and student teachers involved in the ITE partnership programme at Umm Alqura University. The study was conducted under the umbrella of the interpretive paradigm. Case study was used as the methodology of the study. The study employed multiple methods of data collection: questionnaire, interviews and documentary evidence. Maximum variation sampling was used to select the participants to take part in the current study. The total number of the whole sample with all sub-groups was 187. Ten in-depth interviews were conducted with volunteer interviewees.

The study yielded various findings. Participants’ expectations were influenced by their history and background. In addition, student teachers were supported in learning about teaching in the university, school and through the partnership between school and university. However, different kinds of challenges were identified. These included: extreme centralisation in running the partnership activity system, lack of awareness of the importance of the partnership and of the need to address contradictory points of view about teaching and learning to teach in a constructive way. These challenges were symptoms of unresolved contradictions inherent in the partnership activity system. Despite these contradictions, many opportunities for professional development were highlighted by all partners.

Using AT as an analytical tool, several implications for all partners were identified. The study concluded with the idea that for effective teacher education, not only is it important to understand the interaction between university and school but also how, within each, administrative and academic activity sub-systems operate and interact. This is because clear understanding of all aspects of the academic and administrative elements of the partnership, and of their relationship, is essential for a successful teacher education.

### Chapter one: Introduction, context and exploring the gap

1.1 Introduction ................................................. 16
1.2 Context of the research ................................. 17
  1.2.1 Philosophy of education .............................. 18
  1.2.2 The structure of provision (educational stages) ... 18
    1.2.2.1 Pre-school ........................................ 18
    1.2.2.2 General education .................................. 18
    1.2.2.3 Higher education ................................... 19
  1.2.3 Administration of the educational system .......... 20
    1.2.3.1 The Higher Educational Policy Committee ......... 20
    1.2.3.2 Ministry of Education ............................... 20
    1.2.3.3 Ministry of Higher Education ....................... 20
  1.2.4 Teacher education ...................................... 20
    1.2.4.1 System of teacher education ....................... 20
    1.2.4.2 The Faculty of Education at Umm Alqura University 21
    1.2.4.3 Teacher training ................................... 23
    1.2.4.3.1 Courses offered to pre-service teachers ....... 24
    1.2.4.3.2 Courses offered to in-service teachers ......... 28
  1.3 Exploring the gap ........................................... 30
  1.4 Aims of the research ....................................... 30
  1.5 Significance of the research ............................ 31
  1.6 Why carry out this research? My personal interest and previous
1.7 Overview of the thesis ................................................................................................................. 37
1.8 Summary of the chapter .................................................................................................................. 38

**Chapter two: Theoretical framework**

2.1 Introduction ................................................................................................................................. 40
2.2 An overview of AT ......................................................................................................................... 40
2.2.1 History, background and generations ......................................................................................... 41
2.2.2 The basic principles of AT ......................................................................................................... 46
2.2.3 Activity levels ............................................................................................................................ 48
2.2.4 How does AT shape my work? .................................................................................................... 49
2.2.5 Pros and cons of AT .................................................................................................................. 55
2.2.6 Comments ................................................................................................................................ 56

**Chapter three: Literature review**

3.1 Introduction .................................................................................................................................... 58
3.2 Definitions ...................................................................................................................................... 59
3.2.1 Administrative issues .................................................................................................................. 59
3.2.2 Teacher education ....................................................................................................................... 59
3.2.3 Partnership between school and university ............................................................................... 60
3.3 Some administrative and academic issues in teacher education in KSA .......................................... 60
3.3.1 Some administrative issues in teacher education in KSA ......................................................... 60
3.3.1.1 Centralization ....................................................................................................................... 60
3.3.1.2 Funding ............................................................................................................................... 62
3.3.2 Some academic issues in teacher education in KSA .................................................................. 63
3.3.2.1 Content of the pre-service teacher education programmes .................................................. 63
3.3.2.2 Conceptualising the link between theory and practice ......................................................... 64
3.3.2.3 Teacher education research ................................................................................................. 68
3.3.3 Interaction between administrative and academic issues .......................................................... 69
3.4 University and school partnership in teacher education .................................................................. 70
3.5 Oxford internship scheme ............................................................................................................. 76
3.5.1 The development of the internship scheme ................................................................................. 76
3.5.2 Ideas and principles guiding the scheme .................................................................................... 77
3.5.2.1 Goals to be achieved in the teacher education programme .......... 78
3.5.2.2 Problems to be solved in teacher education programmes .......... 79
3.5.2.3 Principles of the scheme ........................................... 82
3.5.3 The internship model in practice ........................................ 83
3.5.3.1 The general programme ............................................. 85
3.5.3.2 The curriculum programme ........................................ 86
3.5.4 Problems, comments and opportunities offered by the scheme ....... 86
3.5.5 Lessons to be learned from the Oxford internship scheme and implemented in the Saudi context ........................................ 93
3.5.6 Concluding thoughts on the scheme .................................... 94
3.6 Recent developments in teacher education and the partnership between school and university ................................................. 96
3.7 Overview of the reviewed literature and stating the research questions .................................................................................. 101

Chapter four: Research design

4.1 Introduction ................................................................. 103
4.2 Research paradigm ....................................................... 103
4.3 Ontological assumptions .................................................. 104
4.4 Epistemological assumptions ............................................. 104
4.5 Methodology ................................................................. 105
4.5.1 Population and sampling .............................................. 107
4.5.2 Generalization from case study ...................................... 109
4.6 Methods of data collection ............................................... 109
4.6.1 Questionnaire ........................................................... 110
4.6.2 Interviews ................................................................. 112
4.6.3 Documentary evidence ................................................. 113
4.6.4 The relationships between the data collection methods .......... 114
4.7 Translation of the questionnaires and interviews ...................... 116
4.8 Procedures of data collection .......................................... 116
4.9 Data analysis ............................................................... 121
4.9.1 Questionnaires data analysis ......................................... 122
4.9.2 Interviews data analysis ............................................... 123
4.9.3 Documentary evidence data analysis ............................... 125
4.10 Validity.................................................................................................................. 126
4.11 Ethical issues........................................................................................................ 127
4.12 Summary of the chapter...................................................................................... 128

Chapter five: Quantitative findings and making sense of the data
5.1 Introduction........................................................................................................... 129
5.2 An example of the process of analysis................................................................. 129
5.2.1 Expectations about a good teacher............................................................... 129
5.2.1.1 Differences among different groups according to role, gender and year of experience................................................................. 130
5.3 Subject.................................................................................................................. 135
5.3.1 Differences among different groups............................................................... 136
5.4 Object.................................................................................................................... 138
5.4.1 Differences among different groups............................................................... 139
5.5 Tools...................................................................................................................... 142
5.6 Community........................................................................................................... 143
5.6.1 Differences among different groups............................................................... 148
5.7 Rules..................................................................................................................... 152
5.7.1 Differences among different groups............................................................... 154
5.8 Division of labour............................................................................................... 156
5.8.1 Differences among different groups............................................................... 158
5.9 Conclusion............................................................................................................. 162

Chapter six: Qualitative findings and making sense of the data
6.1 Introduction and preview of the findings............................................................ 163
6.2 Perspectives on a good teacher.......................................................................... 167
6.2.1 Purpose........................................................................................................... 167
6.2.2 Disposition..................................................................................................... 168
6.2.3 Knowledge...................................................................................................... 169
6.2.4 Action.............................................................................................................. 171
6.2.5 A good teacher tools for personal learning...................................................... 173
6.2.6 Teaching outcome.......................................................................................... 174
6.2.7 Explanation for pupils’ learning...................................................................... 175
6.3 Expectations about learning to teach................................................................. 175
6.3.1 Tools for personal learning about teaching ........................................ 175
6.4 Expectations about teaching ............................................................. 179
6.5 History and background ................................................................. 180
  6.5.1 Personal experience ............................................................... 180
  6.5.2 Family .................................................................................... 183
  6.5.3 Own teacher influence ........................................................... 184
  6.5.4 Others influence ..................................................................... 185
  6.5.5 Values ..................................................................................... 186
  6.5.6 Influence of history and background ......................................... 187
6.6 Objects ............................................................................................ 190
  6.6.1 Student teachers’ objects ......................................................... 190
  6.6.2 Student teachers’ hardest objects to be achieved ..................... 192
  6.6.3 University objects .................................................................. 193
  6.6.4 School objects ........................................................................ 194
6.7 Learning at the university ............................................................... 197
  6.7.1 Feeling about learning in the university .................................... 197
  6.7.2 Action-own learning ............................................................... 198
  6.7.3 Support at the university ......................................................... 198
  6.7.4 Hindrance at the university ...................................................... 200
  6.7.5 Bringing the university-related findings together and making sense of the data ................................................................. 203
  6.7.6 Recommendations for the university ...................................... 205
6.8 Learning at the school .................................................................... 206
  6.8.1 Feeling about learning in the school .................................... 206
  6.8.2 Support at the school ............................................................. 207
  6.8.3 Hindrance at the school ......................................................... 210
  6.8.4 Bringing the school-based findings together and making sense of the data ................................................................. 218
  6.8.5 Recommendations for the school .......................................... 221
6.9 Learning through the partnership between school and university .... 223
  6.9.1 Support through the partnership ........................................... 223
  6.9.2 Feeling about learning through the partnership ....................... 225
  6.9.3 Hindrances through the partnership between school and university .... 225
  6.9.4 Different points of views ......................................................... 232
6.9.5 Dealing with different points of views ........................................... 234
6.9.6 Bringing the partnership-related findings together and making sense of
the data ............................................................................................... 236
6.9.7 Recommendations for the partnership between school and university … 239
6.10 Professional development through the partnership between school
and university ....................................................................................... 242
6.11 Assessment .................................................................................... 245
6.11.1 Attitude towards assessment ....................................................... 245
6.11.2 Recommendations for assessment .............................................. 247
6.12 Conclusion ..................................................................................... 248

Chapter seven: Further discussion using AT as an analytical tool
7.1 Introduction .................................................................................... 250
7.2 Answering the research questions .................................................. 250
7.2.1 The university context ................................................................ 251
7.2.2 School context ............................................................................ 251
7.2.3 The partnership between school and university in teacher education 252
7.3 The analysis of the partnership activity system ............................ 254
7.4 Conclusion ..................................................................................... 263

Chapter eight: Implications, recommendations, suggestions and
conclusion
8.1 Introduction .................................................................................... 266
8.2 Difficulties in conducting the study ................................................. 266
8.3 Implications .................................................................................... 267
8.3.1 Implications for policy makers and administrators ...................... 268
8.3.2 Implications for university tutors and cooperating teachers .......... 268
8.3.3 Implications for parents ............................................................... 269
8.3.4 Implications in terms of AT ......................................................... 270
8.4 Recommendations ......................................................................... 270
8.5 Suggestions ................................................................................... 273
8.6 The way ahead ............................................................................... 274
