

Destinations and origins of migrants to the USA, 1830-1910

The tables below give the numbers of migrants to the USA in the seven decades from 1830 by sex. The first two tables show the last place of residence organised by Registration District and Sub-District and the second pair of tables show the state of destination by decade. These data were derived from the database of the Cornish Global Migration Programme, based at Murdoch House, Redruth.
