

The behaviour of badgers (*Meles meles*) in response to a period of pre-baiting and trapping undertaken for disease management research

Submitted by Amy Louise Griffiths
to the University of Exeter as a dissertation for the degree of Masters by
Research in Biosciences, October 2011.

This dissertation is available for Library use on the understanding that it is
copyright material and that no quotation from the dissertation may be published
without proper acknowledgement.

I certify that all material in this dissertation which is not my own work has been
identified and that no material has previously been submitted and approved for
the award of a degree by this or any other University.

Contents

Section 1 – Literature Review. Managing wildlife diseases.....	5
<i>Importance of wildlife diseases</i>	6
<i>Definition of disease</i>	6
<i>Transmission routes</i>	7
<i>Emerging infectious diseases</i>	7
<i>Why manage disease?</i>	8
How is disease managed?.....	9
<i>Targeting the infectious or parasitic agent</i>	9
<i>Targeting the host</i>	11
<i>Manipulating the environment</i>	14
<i>Other useful management tools and strategies</i>	15
<i>Translocations and disease</i>	15
<i>Monitoring and surveillance</i>	15
<i>Education</i>	16
<i>Modelling, GIS and contingency planning</i>	16
<i>Disease and endangered species</i>	17
<i>Economic considerations for disease management</i>	18
<i>Conclusion</i>	19
<i>References</i>	21
Section 2 – Research project. The behaviour of badgers (<i>Meles meles</i>) in response to a period of pre-baiting and trapping undertaken for disease management research.	30
<i>The behaviour of badgers (Meles meles) in response to a period of pre-baiting and trapping undertaken for disease management research.</i>	31
<i>Introduction</i>	32
<i>Materials and method</i>	37
<i>Study design (i)</i>	37
<i>Study area</i>	37
<i>Study design (ii)</i>	39
<i>Behaviour analyses</i>	40
<i>Statistical analysis</i>	41
<i>Results</i>	44
<i>Pre-baiting data</i>	45
<i>Trapping data</i>	56
<i>Discussion</i>	60

<i>Behavioural responses during pre-baiting</i>	61
<i>Welfare in traps</i>	63
<i>Further work</i>	65
<i>Conclusions</i>	66
<i>Acknowledgments</i>	68
<i>References</i>	69
<i>Appendix 1 – Summary all filming data</i>	75
<i>Appendix 2 – Pre-baiting data</i>	76
