Micrographs - actualistic outdoor cast, samples 1-5

Sample 1 unetched: Actual outdoor cast 1A, taken from lower edge of object:

Micrograph 1: Sample 1, photo taken on the edge of the sample

Micrograph 2: Sample 1, photo taken in the interior of the sample
Micrograph 3: Sample 1, photo taken on the edge of the sample

Sample 1 etched: Actual outdoor cast 1A, taken from lower edge of object:

Micrograph 4: Sample 1, photo taken near the outer edge of the sample
Micrograph 5: Sample 1, photo taken near the outer edge of the sample

Micrograph 6: Sample 1, photo taken in the interior of the sample
Micrograph 7: Sample 1, photo taken in the interior of the sample

Sample 2 unetched: Actual outdoor cast 1B, taken from cutting edge of object:

Micrograph 8: Sample 2, photo taken at the cutting edge of the sample
Micrograph 9: Sample 2, photo taken at the cutting edge of the sample

Micrograph 10: Sample 2, photo taken in the interior of the sample
Sample 2 etched: Actual outdoor cast 1B, taken from cutting edge of object:

Micrograph 11: Sample 2, photo taken on the outer edge of the sample

Micrograph 12: Sample 2, photo taken in the interior of the sample
Micrograph 13: Sample 2, photo taken near the outer edge of the sample

Micrograph 14: Sample 2, photo taken on the outer edge of the sample
Micrograph 15: Sample 2, photo taken between outer edge and inner cavity of the sample

Micrograph 16: Sample 2, photo taken on outer edge of the sample
Micrograph 17: Sample 2, photo taken on edge of inner cavity of the sample

Sample 3 unetched: Actual outdoor cast 2A, taken from cutting edge of object:

Micrograph 18: Sample 3, photo taken in the interior of the sample
Micrograph 19: Sample 3, photo taken in the interior of the sample

Micrograph 20: Sample 3, photo taken on the cutting edge of the sample
Sample 3 etched: Actual outdoor cast 2A, taken from cutting edge of object:

Micrograph 21: Sample 3, photo taken on the cutting edge of the sample

Micrograph 22: Sample 3, photo taken on the interior of the sample
Micrograph 23: Sample 3, photo taken near outer edge of the sample

Micrograph 24: Sample 3, photo taken on the interior of the sample
Micrograph 25: Sample 3, photo taken on the outer edge of the sample

Sample 4 unetched: Actual outdoor cast 2B, taken from side of object:

Micrograph 26: Sample 4, photo taken near the outer edge of the sample
Micrograph 27: Sample 4, photo taken in the interior of the sample

Micrograph 28: Sample 4, photo taken on outer edge of the sample
Sample 4 etched: Actual outdoor cast 2B, taken from side of object:

Micrograph 29: Sample 4, photo taken near outer edge of the sample

Micrograph 30: Sample 4, photo taken in interior of the sample
Micrograph 31: Sample 4, photo taken on outer edge of the sample

Micrograph 32: Sample 4, photo taken on outer edge of the sample
Micrograph 33: Sample 4, photo taken in interior of the sample

Sample 5 unetched: Actual outdoor cast 3A, taken from side of object:

Micrograph 34: Sample 5, photo taken on outer edge of the sample
Micrograph 35: Sample 5, photo taken near outer edge of the sample

Sample 5 etched: Actual outdoor cast 3A, taken from side of object:

Micrograph 36: Sample 5, photo taken near the outer edge of the sample
Micrograph 37: Sample 5, photo taken in the interior of the sample

Micrograph 38: Sample 5, photo taken in the interior of the sample
Micrograph 39: Sample 5, photo taken on the outer edge of the sample
