The World War

Arranged in chronological order by Dr. R. Wilson, B.A., F.R.G.S.

THE Sets cover the period from the Beginning of the War to July, 1915. The Slides are arranged roughly in chronological order, each set dealing with a definite period, and as far as possible, covering a connected series of events, as expressed by the Titles given below.

The pictures have been carefully selected to show the general course of the War in each of the main theatres of action—in the West, in Central Europe, in the Near East, and on the Sea. The lecture published with each set of slides not only gives full explanatory particulars of each pictured incident, but connects one with the other, so that any one using the full series of slides can trace the course of the great struggle, month by month.
