A VIEW ON THE MANCHESTER SHIP CANAL

[Manchester Ship Canal Co.]
VIEW OF A CUTTING ON THE PANAMA CANAL
A TITAN CRANE SETTING 40-TON APRON BLOCKS AT SOUTH SHIELDS

The most powerful Titans have a reach of 270 feet radius, and handle 50-ton blocks.
THE “KAISER WILHELM II” IN THE SHIPYARD

The two-storey house in the foreground is dwarfed by this 700-foot ocean racer.
BOURN ARTESIAN WELL, NEAR SPALDING, LINCOLNSHIRE

This well yields over 5,000,000 gallons a day, and may therefore be considered the most copious of its kind in Europe. It is 134 feet deep, and 23 inches in diameter. On the right will be seen some of the rods used in the boring of the shaft.
