DOI: 10.1007/s00418-015-1339-x

The original method established for estimating the granule size distribution is published in Hacker C, Asadi J, Pliotas C, Ferguson S, Sherry L et al. (2016). Nanoparticle suspensions enclosed in methylcellulose: a new approach for quantifying nanoparticles in transmission electron microscopy. *Sci Rep* 6:25275.
