Oystermaid
I was sailing from Australia to New Zealand. The speed of the boat can reach **100,000** mph. As I was sailing along, a enormous bull shark jumped out and ripped off one of my sailor's heads. But he was still able to work. Then a flock of piranhas started to eat the boat, but luckily I had my weapon. I shot all the piranhas. But then I crashed into rocks and then I got eaten by a bull shark.
